## Reports Sent to Me

Your colleagues can share reports with you. When they do, you will see your shared reports here, instead of this message.

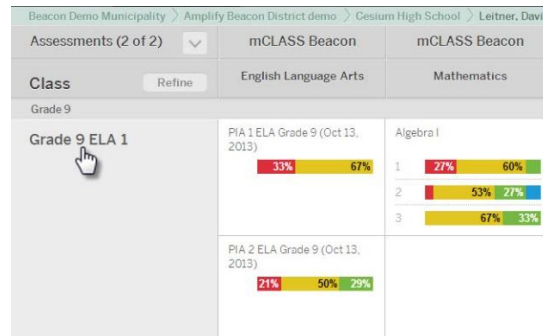

- The Dashboard provides a quick overview of district performance. Hover your cursor over the bar graphs for more details. Then click on Cesium High School to drill down into scores by teacher.

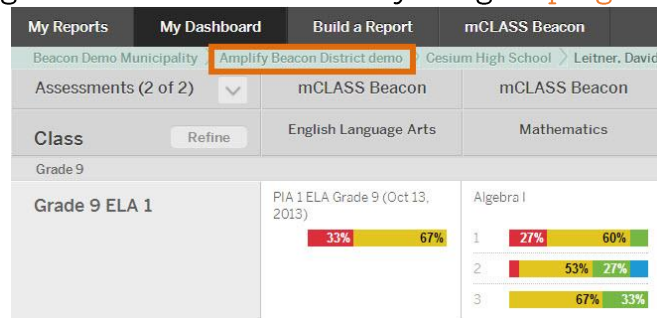

- You can hover your cursor to see the bar graphs, then click on the teacher name (Leitner, David) to drill further down to class results.

- Then you can select a class (Grade 9 ELA 1) to view student level results.

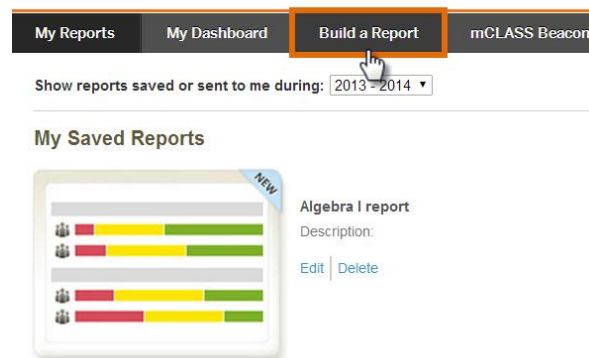

8. You return to a higher level in the dashboard by using the **progress bar**.

9. Now let's explore building a district-wide report based on parameters you choose. Select **Build a Report** from the menu.

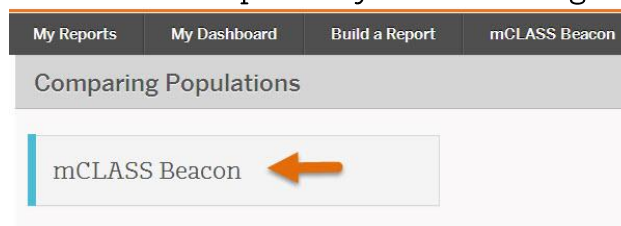

## mCLASS® Reporting

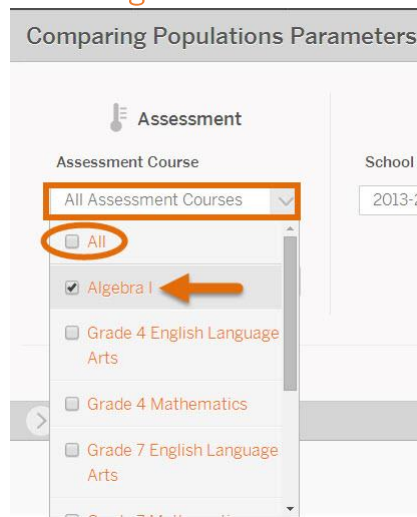

10. Choose **Comparing Populations (New)** as an example.

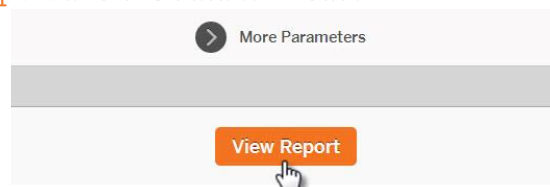

11. You will now see parameter options that you can leverage to design a report. First, choose **mCLASS Beacon**. This is the product you are choosing results from.

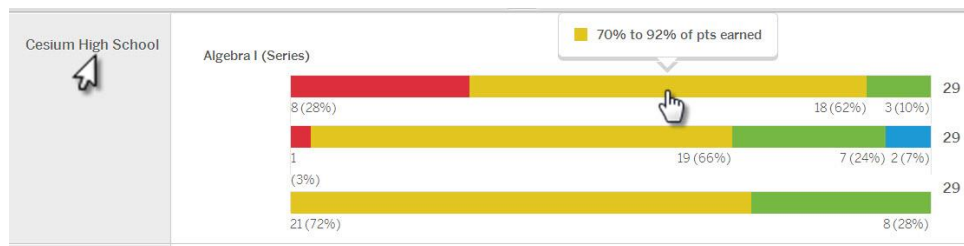

12. First we'll choose the **Assessment Course** using the drop down menu. Choose **All** to deselect all courses. Then choose **Algebra I**.

13. Now choose **View Report** and the data will load.

14. Hover your cursor over areas of the bar graph for more details. Then click on the school name (Cesium High School) to drill into the report just like you did in the Dashboard area.

15. Click Save to keep the report. You can easily share your report with colleagues using the Share button. Print the report using the PDF button or export the report to Excel using Export.
